

The Sinclair

2,400 sqft, 4 bedrooms, 2/3 baths

The Sinclair features the popular "pocket office" up front and an oversized island in the kitchen with a spacious corner pantry. Shown with the walk in shower option, the master bath also has an option for a separate jetted tub. The upper level can have an expanded loft area at the top of the stairs and has been built with a third bath creating a second master area. Another popular option is a covered or screened porch off the dining area. Both sides of the home are expandable if extra room is needed in the master or secondary bedrooms.
