

The Black Creek

**1,950 sqft, 3/4 bedrooms, 2
baths**

The Black Creek is an economical plan that can easily be expanded in all rooms if more space is needed. The plan features a convenient walk-thru laundry with double pocket doors and options for a drop zone or second pantry. The master bedroom has an oversized walk-in closet. With the breakfast area off the kitchen (expandable) and snack bar, there are many options for the dining/sitting room space. Popular upgrades would be a covered/screened porch off the breakfast area or a corner fireplace in the great room.

"The builder who always welcomes your call."
